IN THE
WILLIAMS' ADDITION,
South of Creighton avenue, the following streets: Harrison, Webster, Taber and Suttenfield, are 60 feet in width and are "parked," as is customary in many other cities east and west. With the regular six feet walk, nine feet more are taken from the street, fifteen feet on each side, for grass plat and trees. This is called "parking" the street. Which still remains amply wide for carriages and wagons. Where streets are thus "parked" fences are usually considered a superflous expense and the roadway is more easily kept rounded up in good condition for driving.

Fire at Van Wert, Ohio.

VAN WERT, Ohio, Oct 24.—A fire on Market street, known as Bottle Row on account of the number of saloons on that thoroughfare, early yesterday morning, destroyed George Brown's restaurant and damaged R. H. Place's restaurant and H. Frieze's saloon. A high wind prevailed and at one time great damage was threatened, but the firemen went in with a will and did good effective work, thus averting a fire in the workhouses and factories in the adjoining square. M. Woodruff owned the buildings. Loss, $2,000; cause unknown.

DASTARDLY WORK.

An Attempt to Burn a Building in Which Thirty Italians Were Sleeping.

GRAND RAPIDS, Mich., Oct. 25.—An attempt to burn thirty Italians, asleep in a building in the township of Paris, Kent county, was frustrated last night by the timely warning of one of them, who awoke and found the building in flames. The building was one used by an Italian king, Santo Carfale, who was keeping a sort of a store, with rooms above it for sleeping rooms. The Italians are working on the new railroad, five miles south of the city. There had been hard feelings existing between this crew and a crew of fourteen grading near, who live in this city. About 10 o'clock last night an unknown man crept into into a vacant room, set fire to the house, joined the party outside, barricaded the doors and used every effort to keep the inmates from escaping. They, however, managed to get out, many of them leaving all their clothing. An effort will be made to find the guilty ones and punish them. It was a narrow escape for all, as they had retired early and were sound asleep when the alarm was given.

WOODS AFIRE.

Flames Run Through the Tops of Trees Like the Wind.

ST. LOUIS, Oct. 25.—The saw mill, shingle mill and planing mill of C. C. Loomis, about three miles north of Little Rock, Ark., was burned down last night. The cause was a fire in the woods and so fierce were the flames and so rapid their advance that Loomis and his men were compelled to seek safety in flight. So parched and dry were the woods around the mill that the flames ran through the tops of trees, devouring everything in their way. The total loss on timber and mills is $157,000; no insurance.

Fatal Shooting Affray.

BROUGHTON, Ind., Oct. 25.—J. A. Plumley, superintendent of the Vanderbilt stave works, and W. W. Carpenter, a factory hand, have long cherished a lively enmity toward each other because of a dispute over wages. They met last evening in a village store when the altercation was renewed. Finally Carpenter struck Plumley and the latter, drawing a revolver, fired upon his assailant, who returned the fire, the two exchanging shots until they were *horse de combat* from weakness and lay on the floor weltering in blood. Carpenter was shot just under the heart in the left side, puncturing the intestines and in the region of the kidneys. Plumley was shot in the breast and through the hand. Carpenter is dying and Plumley's condition is by no means hopeful.

Trouble Expected.

FORT SMITH, Ark., Oct. 25.—The reported fight between the vigilants and outlaws at Wewoka, in the Indian Territory, last Thursday, proves to be false. Trouble is expected in the Cherokee nation, however, over the late election, as a contest is being made. Everything was quiet at last accounts, but serious trouble is brewing, and a conflict may occur at Talequah, the capital of the Cherokee nation, when the national council meets two weeks hence, and the result of the election is officially declared.

Eagles in Indiana.

BRAZIL, Ind., Oct. 25.—A Sullivan county farmer named Eaton, killed a fine specimen of the bald eagle near Sullivan a day or two since. It measured seven feet between wing tips. A year ago Parke county farmers lost from raids by eagles on chicken-roosts and sheep-folds. An eagle was killed, and a hunt proposed to break up their roost. Professor Collett, ex-state geologist, says there are several eagle roosts in the state.

Finally Captured.

VANDALIA, Ill., Oct. 25.—Alfred Gannon, under sentence to fourteen years in the penitentiary for the murder of his six-year old son near this place some three years ago, and who by overpowering the keeper escaped from jail here about a year ago, has just been captured at Rich Hill, Mo. Special Deputy Sheriff Jesse Mays left yesterday for Rich Hill, and will return with the prisoner.

Man and Money Missing.

INDIANAPOLIS, Oct. 25.—John Woerman has been missing about a week. His wife asserts that she does not know where he is. He has been the collector for a wholesale grocery house here. One of the firm says that he has failed to turn in all of his collections, and thinks that accounts for his disappearance. The shortage is about $2,500.

Detroits Win.

DETROIT, Oct. 25.—The game yesterday afternoon was played before about 4,000 people, who, for the most part, stood out the game, but a vast amount of shivering was done. The score stood 6 to 3 in favor of the Detroits. The clubs played a game at Chicago this afternoon.

IT MAY BE SO.

No Trouble Anticipated at the Execution of the Anarchists.

SPRINGFIELD, Ill., Oct. 25.—General Vance was seen by a reporter and asked if the state authorities contemplated holding either the first or second regiment, Illinois state guards, in readiness to suppress any resistance on the day of of the hanging of the anarchists. He replied that the governor was the proper person to answer the question, but stated that a week or more ago when in Chicago he had a conversation with Sheriff Matson on the subject.

The sheriff was of the opinion there would not be the slightest trouble in Chicago on that day. As far as he was concerned the general said he did not expect any trouble. He thought the sheriff of Cook county had matters under control, and that it would not be necessary to hold any of the troops in reserve. He said they tried to keep a sharp watch ahead, and if they were apprehensive of any danger on any occasion they could call the troops out promptly.

Shot While Attempting to Escape.

HOT SPRINGS, Ark., Oct. 25.—Jasper Duncan, a prisoner confined in the county jail, was shot and almost instantly killed by Sheriff Williams. Duncan was attempting to escape from jail, and had reached the street. Duncan was recently adjudged guilty on a charge of complicity in killing Mike Martin, and sentenced to twenty years in the penitentiary.

Bandits Work.

RIO GRANDE CITY, Texas, Oct. 25.—Saturday a party of bandits came to town and mailed two letters at the post office, one to Manuel Cuerro, of Rome, and the other to Senor Donaccino Garcia of this place, notifying them that unless they at once raised $15,000 and $8,000 respectively for the bandits their stores would be blown to atoms with dynamite.

Will They do it?

CHICAGO, Oct. 25.—The inter-state commission has addressed a circular to all the general managers of railways, asking them to specify all the instances where they are charging less for longer than shorter hauls, and for what reasons. The inquiry virtually asks the officials to lodge complaints against themselves for violations of the inter-state commerce act.

A Heavy Failure.

ASHLAND, Wis., Oct. 25.—Rood & Maxwell, of Washburn, the heaviest lumbermen doing business on the bay, were closed yesterday by the sheriff on an attachment issued by the Third National bank of St. Paul to secure an advance of $208,000. Over 200 men are thrown out of employment. The total liabilities of the firm will reach $450,000.

The Horn-Tailed Serpent.

SAN FRANCISCO, Oct. 25—A miner who penetrated recently into an abandoned mine in Michoacan, in Mexico, was confronted with a serpent that measured eleven feet and three inches in length and had a horn on the end of its tail. After a desperate struggle the snake was killed and has been added to the miner's natural history collection.

OUR MIDNIGHT CALLERS.

Burglars Get Into "The Sentinel" Office and Feast on Postage Stamps.

Last night the festive burglars were "burgling" as usual. They got into THE SENTINEL building in some way and forced an entrance into the counting room through a transom over the office door. The robbers worked for some time on the safe and attempted to chisel the combination lock from its fastenings.

Failing to get into our safety vault the thieves broke open the cash drawer in a desk and took a little pin money left there and from another desk stole a lot of postage stamps. The intruders then took their departure, without leaving a card or anything like a substantial memento of their whereabouts.

It is really pleasant to have these news items occur right at home, because several members of the staff can be laid off for want of something to do and expenses curtailed sufficiently to cover all losses.

P. S.—By calling at this office during business hours the burglars can procure a photograph of the safe combination lock in order to expedite matters and substantially reward their next visit. We ask this not for their detection, but as a guarantee of good faith.

NATURAL GAS.

Two Propositions Submitted to the Business Men's Exchange.

Mr. G. W. Seavy presided at a meeting of the Business Men's exchange, last night, in the absence of Hon. J. B. White.

Mr. T. P. Keator said that the Calvin S. Brice syndicate would pipe natural gas to Fort Wayne from the St. Marys, Ohio, gas fields, through Van Wert and Monroeville, if the citizens of Fort Wayne subscribed $150,000 towards the company.

Secretary Moynihan said that Hon. R. C. Bell represented that his syndicate would pipe gas to Fort Wayne inside of ninety days providing they were granted a franchise by the council. Mr. Bell further agreed that his company would stipulate in that contract that the cost of gas would not exceed one-half the cost of present fuel.

The exchange requests such a proposition in writing, and also a proposition from Mr. Brice to be submitted next Monday evening.

M. V. B. Spencer criticised the directors of the old natural gas company and demanded activity or their resignations.

BUCK STANLEY KNEW IT.

HUNTINGTON, Ind., Oct. 25.—The *Herald* says: "The officials of Carroll county possibly had no knowledge of the purpose of the mob to take Amer Green from the Delphi jail, Friday night, and hang him, but Deputy Sheriff Stanley, of Logansport, who was in Huntington that night, knew of it, and told several citizens that it was to be done several hours before it occurred."

"THE MODERN PAGAN."

Lecture of General Sheridan at the Temple Last Night.

One of the most intelligent and cultured audiences that ever greeted a lecturer was assembled at the Masonic Temple last evening to hear General Sheridan's lecture on "The Modern Pagan."

At 8:15 Hon. R. C. Bell stepped on the stage followed by the lecturer, Gen. George A. Sheridan, whom he presented in a neat way. The general is a portly, heavy-set man, with a deep, mellow voice. He at once announced his subject, that of "Ingersoll, the Modern Pagan," and after paying a high tribute to Col. R. G. Ingersoll as an orator, husband, father and friend, proceeded with an oratorical ability seldom heard on the rostrom, to show the falsity of the position of the audacious colonel on the subject of religion. He alledged that it was his egotism alone that bolstered him up in his false delusions, picturing Ingersoll's inconsistencies at all points on the subject.

The lecture was a treat, intellectually, and the T. P. A., who brought the gentleman here, were deserving of better patronage than they received, the house not paying expenses.

REMEMBERED BY FRIENDS.

Mr. C. F. Taylor and Prof. N. R. Leonard Highly Honored.

When Mr. C. F. Taylor stepped into the *News* office last evening to say "good bye," the little carrier boys crowded about him and in words laden with good will presented him with a gold-headed cane, appropriately inscribed.

The office employes then took him in charge and slipped a costly ring on his finger, asking Mr. Taylor to accept and wear it as a token of fraternal friendship and esteem. Of course, the gentleman replied as best and kindly as his emotions permitted.

Prof. N. R. Leonard, the senior editor of the *Gazette*, before leaving Iowa City, was given a richly jeweled gold watch and chain by his fellow citizens and friends and it attests the very high esteem in which he was held at his old home, for neighborly honor is the dearest and best token of all.

JEFF WHITE

Jeff White, an employe of the White wheel works, got his left hand into a planer at the saw mill, last evening, and that member was ground to a jelly from the wrist down. The flesh and tendons hung in shreds, while the bones were ground to dust by the cruel knives.

Mr. White is unfortunate. His wife died some time ago, and he almost lost his reason in grief. He has four sons, three of them are at work in the Olds factory.

Chester B. Hamilton, of the Bass moulding rooms, has returned from a week's visit at Fenton, Mich., and resumed work.

Frank Fried, of the car wheel department of the Bass works, injured his foot yesterday, while at work, and is taking a few days' lay off.

H. S. Rodeheaver, the traveling agent of the Olds works, has returned from his western trip and started out on the road again yesterday.

Edward Berkley, a switchman in the Minneapolis railroad yards, is visiting his brother, John Berkley, of the Wabash company, in this city.

Locomotive engine No. 1082 left the Wabash shops to-day, converted into a spark arrester and entered the passenger service. Heretofore it has been a freight engine.

The work of putting in electric lights at the Pittsburg shops is being pushed forward rapidly and during the winter months the entire establishment can be lit with it at night.

B. M. Loser, formerly operator of the Wabash at this place, but later of the A. T. & S. F. railway at Muskoger, I. T., has been transferred to the dispatcher's office of the same company at Osawatomie, Kansas.

Christ Boseker, the popular traveling agent of the Olds works, has returned from an extended trip. Mr. Boseker met the presidential party at various points west and south and at Atlanta was taken for one of the members of Cleveland's cabinet.

A number of foremen in the Pittsburg works, with their wives, paid Mr. Conrod Theile a visit on last Sunday at his pleasant home near Sheldon, and had a very enjoyable time. The occasion was the fifty-second birthday of Mr. Theile and his visiting friends remembered him by making him a very nice and valuable present.

The Pennsylvania company gives notice that the South Chicago and Southern railroad is now open for business its entire length, excepting from Colehour Junction, Ill., a point on the Pittsburg, Fort Wayne and Chicago railroad, fourteen and two-tenths miles from Chicago, to South Chicago and Southern Junction, Ill., where the South Chicago and Southern railroad connects with the Chicago, St. Louis and Pittsburg railroad, nine and three-tenths miles from Colehour Junction.

The improved Westinghouse automatic air brake was tested at Chicago on Saturday, in the presence of a large number of railroad men. The freight train used for the trial consisted of fifty cars, was 1,900 feet, or more than one-third of a mile, in length, and weighed 2,000,000 pounds. It had standard freight brake apparatus and was not especially fitted. The object of the test was to show how quickly a train could be brought to a standstill in an emergency. The train was run at a speed of twenty miles an hour. The brakes were put on at a certain spot, and when the engine had covered 162 feet, or the length of four and one-half cars, beyond this spot the train was perfectly stationary, the stoppage occupying ten and three-quarter seconds of time.

A reporter of the Pittsburg *Dispatch* asked one of the officials of the Pennsylvania road, who was in that city a day or two ago, what the company was doing to relieve the car famine, and he answered as follows: "We are doing all we can. That is the one thing that puzzles us greatly, and we would be glad to receive any suggestions. We can't find the cars. We do not know what becomes of them. We built 11,000 cars this year, and where in the world they have gone to we do not know. President Roberts is beginning to think that if we did not build any more cars they would not be so scarce. The simple fact is that the cars of our road are being used very largely on other lines. The gauge has been made uniform all over the country, and the cars go to all points and are not returned."

TUESDAY, OCT. 25, 1887.

AN orange-grower near Lake Eustis, Fla., found on one of his trees a fruit that seemed to be about two-thirds orange and one-third Japan persimmon. The latter resembles a full-grown and ripe red pepper. He dug down to the roots of the orange tree and there found the living root of a Japan persimmon tree twined among the orange-tree roots.

MISS MIDDIE MORGAN, the live-stock reporter, has been building a house on Staten Island for the last five years, and it is still unfinished. Nothing could be more eccentric than this brick structure. There are iron bars at all the first-story windows, and the largest room in the house is given over to a plunge bath. If the place is ever finished Miss Morgan expects to live there with her sister Jane, who is an artist.

PRINCE BISMARCK'S manners when he is troubled by neuralgia or disturbed at inconvenient moments are the reverse of polite. On arriving at Halle on his way back from Kissingen he was awakened by the cheering of a huge crowd at the station. In a very bad humor he put his head out of the window and growled: "Perhaps you think I am going to make a long speech? Well, you are deceiving yourselves! I am much too tired. Good night." And with that he slammed down the window and drew down the blind.

EX-QUEEN ISABELLA'S friends assert that she never formally abdicated. She signed a paper in the presence of witnesses which was understood to be an act of abdication. But it was never ratified by the Cortes, never given legal publicity, and, indeed, never let out of her possession. The royal signature is no longer visible. What it was is now a huge ink-stain, she having, in her son's lifetime, in a fit of anger at his disregard of her wishes, taken up an inkstand and dashed it down upon the document in question.

IN Boston the sparrows know a thing or two. A lady writes that being attracted by their noisy chattering, she watched their motions and saw a flock of them take turns in carrying a soda biscuit till they dropped it plump on the iron track of the street railroad. Then they all flew away and waited till a car passed over the cracker and ground it to crumbs, whereupon the whole flock swooped down and made a good breakfast. Some people advise poisoning the sparrows. It is very dangerous. Other birds or animals may eat the poison, or the poisoned sparrows. It would not be surprising at any time to find a string of poisoned sparrows on the market.

THE increasingly rapid development of railway communication in India is strikingly exhibited in Mr. Conway Gordon's report, from which we learn that no fewer than 1,025½ miles of new lines were completed and opened for traffic during the official year just ended. Few English folk who sit at home at ease have probably an adequate notion of the perils and hardships that attend upon those who are engaged in constructing these all-important new modes of inter-communication. In the case of the Sind Pishin line the work last summer was carried on in terrific heat. The staff suffered terribly from fever, and the plate-laying gangs were practically renewed every month by fresh importations from India as they melted away from fever, dysentery, and scurvy. In the same way the gangs of girder-erectors dropped off, and during four months were twice replaced. At the mouth of the Chupper rift whole gangs of workmen were prostrated at one time by fever, dysentery, and scurvy. Nor was heat the only trouble. The portion from Sibi to Quetta, 155 miles in length, labors under the disadvantage of its lower half being so hot in summer and its upper half so cold in winter that on these sections, we are told, as far as progress is concerned, about half the year is lost. During the Cumbum division survey 85 per cent. of the inhabitants of the district were attached; but not until the engineering and subordinate staff, as well as the office establishment, were, with scarcely an exception, prostrated, was it determined to temporarily withdraw the expedition.

THE LABOR PARTY

Will Hold a Convention at St. Louis in December.

ST. LOUIS, Oct. 25.—Preliminary arrangements have been made for the holding in this city about the middle of December of a conference of all labor political elements or factions in the country, at which there will be representatives from all parts of the union. The object of the conference is said to be to harmonize all the factions of the labor party under one banner for the campaign next year, and to adopt a general platform. Another purpose is to decide upon a new name—one in which the word "labor" will not appear. The National Free Soil party is the name which it is thought will be adopted. It is expected that Henry George will be a prominent figure in the conference, and that it will adopt his land theory. It is also expected that the conference will fix a date and place for holding a national nominating convention. If this is done an effort will be made to have the convention held here.

THE HAYES GIFT.

It is Modified for Acceptance by the Methodist Mission Board.

WARSAW, Ind., Oct. 25.—The mission board of the M. E. church has finally accepted the munificent gift of Elijah Hayes and wife, of this city, of property valued at $230,000 in town and vicinity. Among the numerous provisions made with the gift was one that the property should remain intact for fifty years and that the rents and profits only should be used for that period. The board feared that the property would depreciate in value after the demise of Mr. Hayes, and desired that the objectionable clause be abrogated with his death. Messrs. Fitzgerald and Ried, members of the board, were sent out here two weeks ago to consult with Mr. Hayes and secure a change in the provisions, in accordance with the wishes of the board. It is understood that Mr. Hayes agreed to the change. Chaplain McCabe writes that the Hayes gift is the most magnificent one ever made to his society.

Banker Rawson Will Recover.

CHICAGO, Oct. 25.—Banker Rawson, it is now thought, will ultimately recover from the terrible wounds he suffered at the hands of his step-son on Sunday last. His physicians say they were well satisfied with the progress of their patient, and thought that unless some unexpected turn for the worse came about he would in not many days have passed the danger line.

DISEASES OF THE EYE AND EAR.

Office hours: 9 to 12 a. m. 1:30 to 4 p. m.

DR. FRUTH, OF NEW YORK,

The Celebrated German Specialist in Chronic Diseases and Diseases of the Eye and Ear, also Surgeon in Charge of the France Medical and Surgical Institute, of Columbus, O., by request of many friends and patients, will make a return visit to Fort Wayne, Ind., Tuesday, and Wednesday November 15 and 16. Consultation and examination free and confiddential at his Parlors at the Robinson House from 9 a. m. to 9 p. m. Two days only.

When it is known that Dr. Fruth is stopping at a place, crowds gather to consult him, and it is not to be wondered at when it is remembered that in diagnosing a disease he never asks questions, but describes the different diseases better than the sick can themselves. It is a wonderful gift for any one to possess. The doctor's diagnostic powers have created wonder throughout the country.

THE FRANCE MEDICAL & SURGICAL INSTITUTE.

INCORPORATED 1886. CAPITAL, $300,000.00.

TELEPHONE 862. No. 30 WEST GAY STREET, COLUMBUS, O. TELEPHONE 862.

Established for the Treatment of all forms of CHRONIC DISEASES, and DISEASES of the EYE and EAR. Also, PRIVATE DISEASES.

D. OTHO FRUTH, M. D., the celebrated German Specialist, of New York, Surgeon in Charge.

Dr. FRANCE, of New York, the well known Specialist in Chronic Diseases and Diseases of the Eye and Ear, Principal.

DR. FRANCE, of New York, the well known and successful Specialist in Chronic Diseases and Diseases of the Eye and Ear, on account of his large practice in Ohio, has associated himself with D. OTHO FRUTH, M. D., the celebrated German Specialist, of New York, who has resigned his position in the Provident Medical Dispensary to take charge of the *France Medical Institute*, where all forms of *Chronic, Nervous and Private Diseases will be successfully treated on the most Scientific Principles.*

A FAIR PROPOSITION.—Intelligent people, the world over, when the reason is appealed to and prejudice is laid aside, can always be relied upon to reach a correct conclusion in any matter that may be presented to them. It is in this way Dr. France, the founder of the France Medical Institute, at No. 30 West Gay street, desires to meet the public, and discuss the manner in which he undertakes to cure chronic diseases. He places his propositions in this wise: Are you accustomed to think and act for yourself? If so, then do not heed the counsel of skeptical and prejudiced friends, or jealous physicians, but listen to what we have to say. You perhaps know nothing of us or our system of treatment, or of the business methods we employ. You may imagine, but you know nothing of our facilities and advantages of perfecting cures in cases beyond the reach or aid of the general practitioner. Knowing nothing, then, of all these advantages, you still know as much as the would-be friend or physician, who never loses an opportunity to traduce and misrepresent us, and prejudice the afflicted against us. We wish to add further that we are responsible and invite you to come and visit our institution; and if you find on investigation that we have mistated or misrepresented in any particular, our institution, our advantages or our success in curing Chronic Diseases, we will gladly bear the expense of your trip. We court honest, sincere investigation, and are glad and anxious to show interested people what we can do and are doing for suffering humanity. Can a proposition be plainer? Can an offer be more fair and business-like? If, therefore, you are afflicted and are seeking relief, come where genuine ability is a ruling feature, where success is our watchword and the alleviation of human suffering our mission.

They adopt the following plan, which is peculiar to the large hospitals, and is not and never has been the practice of country doctors, viz: They carefully note the symptoms of the patient, ascertain the conditions of the internal organs, examine Eye, Ear and Throat by the most recent and approved instruments and methods, all of which they carefully record in their register for future reference. In this way they ascertain the true nature of the disease and its cause. Knowing the disease, they know the changes it produces in the tissues, and, knowing the changes, they check them with specific remedies, and place the patient on the high road to recovery. When sick people consult them they readily tell them whether they can cure or help them, or if they are beyond hope.

The examinations are in accordance with anatomical and physical science, and they will convince the most skeptical. By an examination they will convince any one of the nature and extent of disease, amount of danger to life, and chance of a perfect cure. Believing that science is truth, and "truth is mighty and will prevail" when known, and knowing that disease can be cured, with positive certainty, they invite the afflicted to call and receive advice free and be cured of their diseases.

There is no subject that requires so much study and experience as the treatment and cure of Chronic Diseases. The astounding success and remarkable cures performed by them are due to the long study of the constitution of man, and the cure of diseases by natural remedies. Let those given up by others call for examination. They have successfully treated the following diseases since their arrival in this State; Eye and Ear Diseases, Chronic Diarrhœa, Chronic Inflammation of the Womb, Chronic Inflammation of the Bladder, Painful or Irregular Menstruation, Fever Sores and Ulcers, Incontinence of Urine, Tape Worms, Crooked Limbs and Enlarged Joints, Spinal Curvatures, Club Foot, Hip Joint Diseases, White Swelling, Discharging Abcesses, Sterility or Barrenness, Nervous and General Debility, Prostration and Impotency, Disease of the Kidneys and Bladder, Leucorrhea or Whites, Blotches and Pimples, Skin Diseases, Dyspepsia, Constipation, Dropsy, Cancer, Epileptic Fits, Erysipelas, Gravel, Goitre, Gleet, Gonnorrhæa, Hydrocele, Heart Disease, Liver Disease, Headache, Piles, Hysteria, Syphillis, St. Vitus Dance, Chronic Dysentery, Enlarged Tonsils, Fever and Ague, Fistula in Ano, Hernia or Rupture, Ovarian Tumors, Paralysis or Palsy, Prolapsus Uteri, Bronchitis, Asthma, Catarrh, Scrofula, Consumption, Chronic Cough, Female Weakness, Spermatorrhœa, Rheumatism, etc.

CURING OF PILES GUARANTEED.—Will give $1,000 for any case of failure. No money required of responsible parties.

YOUNG MEN.—Who have become victims of solitary vice, that dreadful and destructive habit, which annually sweeps to an untimely grave thousands of young men of exalted talent and brilliant intellect, may call with confidence.

DR. FRANCE.—After years of experience, has discovered the greatest cure known for weakness in the back and limbs, involuntary discharges, impotency, general debility, nervousness, languor, confusion of ideas, palpitation of the heart, timidity, trembling, dimness of sight, or giddiness, diseases of the head, throat, nose or skin, affections of the liver, lungs, stomach, or bowels—those terrible disorders arising from the solitary vice of youth—and secret practices, blighting their most radiant hopes or anticipations, rendering marriage impossible. Take one candid thought before it is too late. A week or month may place your case beyond the reach of hope. My method of treatment will speedily and permanently cure the most obstinate case and absolutely restore perfect manhood.

TO MIDDLE-AGED MEN.—There are many from the age of 30 to 60 who are troubled with frequent evacuations of the bladder, often accompanied by a slight burning or smarting sensation, weakening the system in a manner the patient cannot account for. On examination of the urinary deposits a ropy sediment will be found, and sometimes small particles of albumen will appear, or the color will be a thin or milkish hue, again changing to a dark or torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is a second stage of seminal weakness. We will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

PRIVATE DISEASES.—Blood Poison, Venereal Taint, Gleet, Stricture, Seminal Emissions, Loss of Sexual Power, Weakness of Sexual Organs, Want of Desire in Male or Female, whether from imprudent habits of youth or sexual habits of mature years, or any cause that debilitates the sexual functions, speedily and permanently cured. Consultation free and strictly confidential. Absolute cures guaranteed. No risks incurred. Correspondence promptly answered, and medicines sent free from observation to all parts of the United States.

DISEASES OF WOMEN.—We have a special department, thoroughly organized, and devoted exclusively to the treatment of diseases of women. Every case consulting our specialist, whether by letter or in person, is given the most careful and considerate attention. Important cases (and we get few which have not baffled the skill of all the home physicians) have the benefit of a full council of skilled specialists. In treatment of diseases peculiar to females, our success has been marked, over two-thirds of our patients being ladies, old, young, married, single, rich and poor. Our method is entirely free from objectionable features of the general practitioner, namely, "Local treatment." We seldom find it necessary. We prepare remedies, constitutional and local, as the case demands, and instruct ladies how to treat themselves.

EPILEPSY, OR FITS—Positively cured by a new and never-failing method.

To Whom it May Concern: We, the undersigned, do cheerfully and conscientiously recommend Drs. France and Fruth as gentlemen of rare professional ability, ripe in judgment, humane to a fault, considerate in price, and enthusiastic for the relief of their fellow men, and we therefore urge the afflicted to avail themselves of their superior skill.

A Boon

Tomankind, said a member c the State Medical Society of Ga., at one of its meetngs, "and the prescription ought to be given to the medcal fraternity for the benfit of the Profession, for no such combination exists in the Pharmacopea as that of Simmons Liver Regulator." The late THOS. H. POWERS, of Philadelphia, America's greatest chemist, asserted "it was like the discovery of Dover, in his celebrated Dover's Powder, it could not be improved and it was wonderfully strange that the combination had never been made in an officinal form."

L. M. HINTON, M. D., Washington, Ark., says: "No other remedy within my knowledge can fill its place. I have been practicing medicine for twenty years, and have never been able to put up a vegetable compound that would, like Simmons Liver Regulator, promptly and effectively move the Liver to action and at the same time aid (instead of weakening) the digestive powers."

Symptoms such as bitter or bad taste in the mouth; pain in the back, often mistaken for Rheumatism; sour stomach; loss of appetite; bowels alternately costive and lax; headache; loss of memory, with a painful sensation of having failed to do something which ought to have been done; debility; low spirits; a thick yellow appearance of the skin and eyes; a dry cough often mistaken for Consumption, indicate Liver disease, and if not regulated in time great suffering, wretchedness and death will often ensue.

WHAT AILS YOU?

Do you feel dull, languid, low-spirited, lifeless, and indescribably miserable, both physically and mentally; experience a sense of fullness or bloating after eating, or of "goneness," or emptiness of stomach in the morning, tongue coated, bitter or bad taste in mouth, irregular appetite, dizziness, frequent headaches, blurred eyesight, "floating specks" before the eyes, nervous prostration or exhaustion, irritability of temper, hot flushes, alternating with chilly sensations, sharp, biting, transient pains here and there, cold feet, drowsiness after meals, wakefulness, or disturbed and unrefreshing sleep, constant, indescribable feeling of dread, or of impending calamity?

If you have all, or any considerable number of these symptoms, you are suffering from that most common of American maladies—Bilious Dyspepsia, or Torpid Liver, associated with Dyspepsia, or Indigestion. The more complicated your disease has become, the greater the number and diversity of symptoms. No matter what stage it has reached, **Dr. Pierce's Golden Medical Discovery** will subdue it, if taken according to directions for a reasonable length of time. If not cured, complications multiply and Consumption of the Lungs, Skin Diseases, Heart Disease, Rheumatism, Kidney Disease, or other grave maladies are quite liable to set in and, sooner or later, induce a fatal termination.

Dr. Pierce's Golden Medical Discovery acts powerfully upon the Liver, and through that great blood-purifying organ, cleanses the system of all blood-taints and impurities, from whatever cause arising. It is equally efficacious in acting upon the Kidneys, and other excretory organs, cleansing, strengthening, and healing their diseases. As an appetizing, restorative tonic, it promotes digestion and nutrition, thereby building up both flesh and strength. In malarial districts, this wonderful medicine has gained great celebrity in curing Fever and Ague, Chills and Fever, Dumb Ague, and kindred diseases.

Dr. Pierce's Golden Medical Discovery

CURES ALL HUMORS,

from a common Blotch, or Eruption, to the worst Scrofula. Salt-rheum, "Fever-sores," Scaly or Rough Skin, in short, all diseases caused by bad blood are conquered by this powerful, purifying, and invigorating medicine. Great Eating Ulcers rapidly heal under its benign influence. Especially has it manifested its potency in curing Tetter, Eczema, Erysipelas, Boils, Carbuncles, Sore Eyes, Scrofulous Sores and Swellings, Hip-joint Disease, "White Swellings," Goitre, or Thick Neck, and Enlarged Glands. "FOR THE BLOOD IS THE LIFE."

Thoroughly cleanse it by using **Dr. Pierce's Golden Medical Discovery,** and good digestion, fair skin, buoyant spirits, vital strength and bodily health will be established.

CONSUMPTION,

which is **Scrofula of the Lungs,** is arrested and cured by this remedy, if taken in the earlier stages of the disease. From its marvelous power over this terribly fatal disease, when first offering this now world-famed remedy to the public, Dr. Pierce thought seriously of calling it his "CONSUMPTION CURE," but abandoned that name as too restrictive for a medicine which, from its wonderful combination of tonic, or strengthening, alterative, or blood-cleansing, anti-bilious, pectoral, and nutritive properties, is unequaled, not only as a remedy for Consumption, but for **all Chronic Diseases** of the

Liver, Blood, and Lungs.

For Weak Lungs, Spitting of Blood, Shortness of Breath, Chronic Nasal Catarrh, Bronchitis, Asthma, Severe Coughs, and kindred affections, it is an efficient remedy.

The Ignorant Contracter.

Col. McCracken, U. S. A., was the chief quartermaster, stationed at San Antonio, Texas. He had advertised for bids to supply the post with corn, and the contract was to be awarded on a certain day. Col. McCracken was believed to be an honorable and conscientious officer, who would not take a bribe under any circumstances.

Tom Rowell, of the firm of Rowell & Smith, was a sharp, shrewd business man, who was very anxious to get the contract to supply the post of San Antonio with corn, but he did not think it was quite safe to offer the quartermaster a bribe, as he had done on previous occasions with other quartermasters. After thinking over the matter for some time he adopted the following plan to carry out his purpose:

He called at Quartermaster McCracken's office, and asked that officer in an insinuating manner to see that he got fair play when the bids were opened. Col. McCracken replied in a very dignified manner:

"The contract, sir, will be awarded to the lowest and best bidder."

Tom Rowell took up his hat and bowed himself out. In doing so he dropped on the floor an envelope containing five one thousand dollar bills, the name of the firm of Rowell & Smith being on the envelope.

Rowell immediately went to the office of the chief of police, and informed him that he had lost an addressed envelope containing five one thousand dollar bills.

Rowell argued in this way:

"If Col. McCracken keeps the money, I'll get the contract, and I can well afford to let him keep the $5,000. If he, on the other hand, thinks I am trying to bribe him and gets mad about it, I will simply say I dropped the envelope on the floor accidentally, and had no intention of bribing him, and that I didn't know where I had lost the money."

Rowell had scarcely returned to his office from notifying the police of his loss, when in rushed Col. McCracken, his face flushed, very much excited and holding the envelope in his hand.

"What do you mean, sir," he exclaimed, "by trying to bribe a United States officer? This is an insult, sir," and he slammed the envelope down on the table.

Rowell made out that he was very angry at the insinuation. He pounded on the desk with his fist and roared out:

"And what do you mean, sir, by charging me with attempting to bribe anybody? I merely asked you to see that my bid was properly considered. I dropped that envelope without knowing it, and I have been hunting all over town for it. I want you to understand, sir, that I am a gentleman, even if I am only a civilian."

"Now, that is just a little thin," retorted Col. McCracken."

"Well, sir, I'll prove to you that you are mistaken, and then I shall expect an apology," replied Rowell. And going to the telephone he requested the chief of police to come immediately to the office of Rowell & Smith. That official was there in a few minutes and fully confirmed Rowell's statement that he had notified the police of the loss of the money as soon as he had missed it.

Col. McCracken was overwhelmed with mortification at having unjustly accused an innocent man of having attempted to bribe him. He was profuse in his apologies, which Rowell at length accepted.

The bids were opened next day, and it was found that Rowell's bid was not the lowest, but Col. McCracken, feeling that he owed Rowell some reparation, decided that the bondsmen of the lower bidder were not good, and gave the contract to Rowell, who cleared upwards of $25,000 out of it, without having to spend a cent to lubricate anybody.—*Alex. Stewart, in New York Mercury.*

A Glimpse at Thackeray's Religion.

And is W. Bullar going to work upon you with his "simple mysticism?" I don't know about the Unseen World; the use of the seen world is the right thing I'm sure!—is just as much God's world and creation as the Kingdom of Heaven with all the angels. How will you make yourself most happy in it? how secure at least the greatest amount of happiness compatible with your condition? by despising to-day, and looking up cloudward? Fish. Let us turn God's to-day to its best use, as well as any other part of the time He gives us. When I am on a cloud a-singing, or a pot boiling—I will do my best, and if you are ill, you can have consolations; if you have disappointments, you can invent fresh sources of hope and pleasure. I'm glad you saw the Crowes, and that they gave you pleasure—and that noble poetry of Aifred's gives you pleasure (I'm happy to say ma'am I've said the very same thing in prose that you like—the very same words almost). The bounties of the Father I believe to be countless and inexhaustible for most of us in life; love the greatest. Art (which is an exquisite and admiring sense of nature) the next—by Jove! I'll admire, if I can, the wing of a cock-sparrow as much as the pinion of an archangel; and adore God the Father of the earth, first; waiting for the completion of my senses, and fulfillment of His intentions towards me afterwards, when this scene closes over us. So when Bullar turns up his i to the ceiling, I'll look straight at your dear, kind face and thank God for knowing that, my dear; and though my nose is a broken pitcher, yet, lo and behold there's a well gushing over with kindness in my heart where my dear lady may come and drink. God bless you—and William and little Magdalene.—"*Unpublished letters of Thackeray,*" *in Scribner's Magazine.*

TOLSTOI has pronounced against the practice of frequent ablutions, and especially against rubbing the body briskly with a towel after bathing, as conducing to the building up of class prejudices. But in Count Tolstoi's native land, Russia, where there has always been among all ranks of society an abhorrence of personal cleanliness, the class distinctions have been as marked as anywhere in the world.

Oberammergau's Passion Play.

The Passion play at Oberammergau will not be performed again till 1890, but during the last month the villagers have been giving a series of dramatic representations in their theater of Muller's drama, "Emperor Otto the Great and His House," in which the role of the Emperor was taken by the woodcarver, Mayer, who takes the part of Christ in the Passion play. The costumes and scenery, all of which were much admired by the Prince Recent of Bavaria, who recently drove over from his hunting lodge in the vicinity, and was present at the performance, were made and painted in the village- *Home Journal.*

Syrup of Figs.

Manufactured only by the California Fig Syrup Co., San Francisco, Cal., is Nature's own true laxative. This pleasant California liquid fruit remedy may be had of Theime and Gross, druggists, large bottles at fifty cents or one dollar. It is the most pleasant, prompt, and effective remedy known to cleanse the system; to act on the Liver, Kidneys, and bowels gently yet thoroughly; to dispel Headaches, Colds and Fevers; to cure Constipation, Indigestion, and kindred ills.

I have not used all of one bottle yet. I suffered from catarrah for twelve years experiencing the nauseating dropping in the throat peculiar to that disease, and nose bleed almost daily. I tried various remedies without benefit until last April, when I saw Ely's Cream Balm advertised in the Boston *Budget.* I procured a bottle, and since the first days' use have had no more bleeding—the soreness is entirely gone.—D. G. Davidson, with the Boston *Budget,* formerly with Boston *Journal.*

TUESDAY, OCT. 25, 1887.

THE CITY NEWS.

The city council will meet in regular session this evening.

A fair association has been organized at Lafontaine, in Wabash county.

Last evening Mrs. James Fields, of Fulton street, fell down a cellar stairway and broke her arm.

Last evening in Ryan's court John Beurett was fined $1 and costs for provoking his wife, Harriet Beurett.

Francis Murphy is now holding a series of Gospel temperance meetings in Chicago and is meeting with much success.

D. W. Shea, Wabash operator at New Haven, and his sister, Miss Julia, returned home yesterday from Mineral Point.

Misses Alice and Mamie Ahern, Mary Brusnihan and Nora Mahr, of Holman street, Sundayed in Columbia City, visiting friends.

Mr. Fred Schmueckel and Mr. August Bruder left, this morning, for Mt. Clemens, Mich. Mr. Bruder suffers severely from rheumatism.

There are no flies on the Wabash railway. During the progress of the Green murder trial it will reduce rates between Logansport and Peru.

The Brotherhood of Locomotive Engineers has paid over $2,000,000 to the widows and orphans of deceased members since the birth of the organization.

General McNulta, receiver of the Wabash road, is the proud and happy father of a daughter. Arrived yesterday, so says a dispatch from Bloomington, Ill.

The Huntington *Herald* says: "J. L. Richardson, the day operator at the Wabash telegraph office in Fort Wayne, is to be married next month to a Toledo lady."

J. H. McClung, recently the editor of the Wabash *Plain Dealer*, has purchased a half interest in the Muncie *Times*, daily and weekly, and will have editorial charge of that paper.

The supreme court of Indiana decided on Tuesday, of last week, that a claim against a decedent's estate must be filed thirty days before the filing of the final settlement. If not, it is barred.

C. R. Cummings, who is recalled as one of the builders of the Nickel Plate road, has sold his business interests to General Samuel Thomas, Calvin S. Brice and Brown, Howard & Co.

The Lafayette *Courier* says: "Wm. P. Cooper, city editor of the Fort Wayne *Gazette*, accompanied by his wife, spent Sunday in the city, the guests of Mrs. C's. parents, Mr. and Mrs. Geo. Brown."

Judge R. S. Taylor returned last evening from Memphis, Tenn., having made a number of speeches in the south on the importance of improving the Mississippi river. The *Gazette* reports him as attacking Mr. Cleveland's policy.

A drunken man went to sleep on the Wabash track at Lafayette Saturday night. Just as the headlight of train 56 showed up around the curve, the night watchman came along and rolled him to one side, saving his life and spoiling a moral for the temperance cause.

The Masonic Temple is having the best run of attractions ever presented in Fort Wayne. The bookings for this and next week are Murray and Murphy, October 28th, and Oliver Byron, October 31st. The most magnificent drama ever presented "Held by the Enemy," November 3d and "The Gypsy Baron," November 5th.

Mr. Geo. Stevens, superintendent of the Wabash road proper, is an expert with the telegraph instrument. He often, at the same time, will be sending a message with one hand and writing another message coming in on another wire, and he does it with a correctness which cannot be excelled.

The officials of the Pennsylvania company, located in Pittsburg, will, on the 1st of January, occupy their new building. It is said to be one of the largest and most conveniently arranged buildings for railroad offices in this country, and Master of Motive Power Joseph Woods and his clerical force, in this city, will have office rooms in it.

The Chicago *Times* criticises Hon. A. P. Edgerton, of Fort Wayne, for the liberal construction he puts on the civil service law. Mr. Edgerton will survive and enjoy more than ever the esteem of his fellow democrats for his broad expression that a public office does not disfranchise an American citizen from exercising his political rights.

The Wabash city council has decided to abandon the exploration for natural gas, for which the sum of $3,000 was appropriated from the city treasury. Three wells were sunk with that amount besides the purchase of tools. The sale of the latter to the people of Somerset, has been effected. Wabash presents an inviting field to a natural gas pipe line syndicate. The gas field is but ten miles away.

The Mansfield *Herald* seems to have fallen upon hard financial lines, and is engaged in frequent trouble with its employes by reason of irregularity and uncertainty in regard to their pay. Recently the old force of printers quit in a body and a new gang was imported from Cincinnati. Last week these demanded their pay, and the succeeding quarrel was brought to a climax by Wm. F. Harn, junior member of the firm, attempting to shoot Charles Shirey, the foreman, who used to set type in Fort Wayne. The trouble is not yet ended.

The tailors of Fort Wayne say that "the custom made overcoats made and sold by Sam, Pete and Max at $7.50 to $12 beats all creation. Only one price the unvarying law of the firm.

Miss Jennie was quite a society lady and has the best wishes of her many friends. Mr. Didier is a business man of Latty, Ohio, where himself and bride will permanently reside.

The "Immortal J. N." was expelled from a car on the Nickel Plate road recently by a new conductor, for refusing to pay his fare. The "immortal" threatens to bring down all the pressure in the universe upon that conductor, and predicts that he will either lose his position or wreck the train. He was compelled to walk tem miles to the next station, and his spirit has been much depressed ever since, because it is only the second time on record in which he was turned out of a car.

The new St. Mary's church is one of the finest structures erected in the west, and before the dedication the congregation wants to give every one an opportunity of visiting the edifice. Less than two years ago the old St. Mary's church was blown up by an explosion, and immediately afterwards steps were taken to build a church appropriate to the growth of the congregation and the city, therefore, will they now throw open the doors before the dedication for all to see what has been done in a short time. There will be on sale the finest handiwork of women, and those who wish can encourage the cause by purchasing. It is indeed a grand structure and an ornament to the city, and the congregation should be encouraged by the patronage of the citizens. Avail yourselves of the opportunity, and be present at the opening Tuesday evening. 24-2t

DR. MANVILLE,

THE EMINENT PHYSICIAN AND SPECIALIST
Lately of London, England.

Has Opened Medical Office Parlors at 32 E. Wayne St.,

Arrived Oct. 3, Will stay Till Nov. 10

The Doctor is a graduate of three different Medical Colleges, both European and American, as his Diplomas will show; and he has been highly honored by other Colleges and Universities as well.

His Reputation is International. He has practiced nearly a quarter of a century. He treats all diseases of the Eye and Ear, all Specific, Nervous, Chronic Diseases and Deformities, of men, women and children, and the Opium and Morphine habit. Dr. Manville diagnoses diseases by an entirely different method from that pursued by ordinary physicians and specialists. He never asks a patient his disease, but by a peculiar method reads and tells every disease, complication and symptom better than the patient can; and that without asking a question. It is

TRULY ASTONISHING!

Even physicians wonder at it and take critical cases to him for a final decision. The great question with them is: How Does He Do It? The internal parts of a patient seem to be as clear and plain to him as the external, but just how he obtains such a marvelous knowledge of his patient's condition, no one seems to understand, or be able to describe. That he does it in every case, no one doubts. Some seem to thing that the Doctor is gifted with supernatural powers; that no ordinary man could give such remarkable descriptions of strangers as he does. Be that as it may, this curious feature of his practice alone, is bringing him thousands of grateful patients; many of whom declare that his wonderful diagnostic skill and power in performing cures is

Positively Miraculous

The most skeptical are convinced and astonished.

Sufferers from Nervous Debility and Blood Diseases and complaints of either sex, requiring Special Treatment, cured in a few days or weeks, without interfering with their work.

HUNDREDS OF MEN.

are afflicted with Seminal Weakness, Spermatorrhea, and Impotency, brought on by various causes, such as veneral excesses and diseases, occupations requiring a straining and stooping position, and especially the unnatural abuses of the sexual functions, the SOLITARY HABIT so often indulged in youth without knowing the terrible results.

Young man, Stop! Look this matter square in the face; think, consider what you are doing. Waste no time and money with ignorant or unskillful pretenders, who trifle with you month after month, treating SYMPTOMS only, with Bromide of Potassium compounds that impoverish your blood, deadens your nerves; stupefy your mind and relieve nothing—but your pocket book. Such poisonous drugging

MAKES YOU WORSE.

We can prove by hundreds of cases on record that bromide mixtures so often given for fits and lost manhood, seldom, if ever, cure fits, but almost always DESTROY MANHOOD and RUIN the MIND. Bromide of Potassium and Gelseminum are the main remedies used. Given for seminal weakness &c., to control SYMPTOMS while you take them. They never touch the CAUSE or effect a CURE. The unhappy victim goes on from bad to worse, reaching at last the most deplorable and horrible condition of humanity imaginable. A Lost Mind—a helpless idiot or raving maniac; made so by the action of these poisons on the blood and brain, as well as by the disease. In fact, these remedies are worse even than the disease. Let Them Alone.

In all such cases we gurantee a speedy restoration to healthy, strong and vigorous manhood. Microscopical examinations of the urine made in all these cases. We make NO EXPERIMENTS and very few failures. We guarantee all curable cases.

Electric Medication and the NEW METHOD TREATMENT enables us to effect WONDERFUL CURES.

DISEASES OF WOMEN.

Every maid, wife and mother who has dragged an aching back and head through weary years; deserves our utmost sympathy, and may depend on getting the most careful, skillful and successful medical treatment that can be given. Twenty years study and practice in diseases of women, both in Europe and America, has convinced me that eight out of ten American women suffer from some of the following complaints peculiar to the sex: Irregularity of the menses, too free, too scant, or painful, leucorrhea, (whites,) vaginitis, metritis, endometritis, ulcerations, displacements, falling of the womb, anteversion, retroversion, lateroversion, ante and retroflexions, producing constipation, or produced by it; uterine and ovarian tumors, fibroma and sarcoma cysts, cancers of the womb or its appendages, frequent or scanty urination, with burning, smarting or itching tenderness, soreness, bloating and backache, eruptions of the skin, pimples, blotches, brown spots, yellow spots, red spots, greasy, pasty, waxy, or chlorotic appearances, and discolorations of the skin, with blue or dark circles around the eyes. Nature is true: she displays her signs and signals the approach of the grim enemy of life, disease. Look sharply into your mirrors; be not deceived, for these signs and symptoms mean weakness, nervousness, irritability, wakefulness, indigestion, headaches, forgetfullness, partial paralysis, sterrility, melancholly, hysteria, wasting, consumption, catalepsy, St. Vitus dance, fits, derangements, insanity and suicide. Many ladies, especially young ladies, are so timid and excessively modest that they hesitate and put off calling on a physician until they are past curing. Mothers should learn more of their daughter's ailments, banish from their minds a dread of examination, for ladies do not have to tell their complaints to Dr. Manville; no unpleasant questions are asked; no objectionable examinations are made; no painful local treatments are given. In most cases ladies can use our local remedies themselves, where it is needed.

While Dr. Manville was on the Medical Staff of the Woman's Hospital, in New York, he was especially noted for great success in treating all diseases peculiar to women.

For the weak and feeble women, and those not in a condition to rear a family, Dr. Manville's "Germicide and Women's Friend," will prove a blessing indeed. Nearly three thousand ladies have called, or sent for it, and used it successfully. It is the greatest remedy known in Europe or America for "Female Weakness." Call now, before it is TOO LATE.

Extraordinary cases require extraordinary skill and experience

Health and strength will make you happier and more independent than money. Study your own interests. Delays are dangerous.

Our terms will be made satisfactory to all; charges as moderate as we can in justice to ourselves and patients make them.

South of Creighton avenue, the following streets: Harrison, Webster, Taber and Butterfield, are 60 feet in width and are "parked," as is customary in many other cities east and west. With the regular six feet walk, nine feet more are taken from the street, fifteen feet on each side, for grass plat and trees. This is called "parking" the street. Which still remains amply wide for carriages and wagons. Where streets are thus "parked" fences are usually considered a superfluous expense and the roadway is more easily kept rounded up in good condition for driving.

DASTARDLY WORK.

An Attempt to Burn a Building in Which Thirty Italians Were Sleeping.

GRAND RAPIDS, Mich., Oct. 25.—An attempt to burn thirty Italians, asleep in a building in the township of Paris, Kent county, was frustrated last night by the timely warning of one of them, who awoke and found the building in flames. The building was one used by an Italian king, Santo Carfale, who was keeping a sort of a store, with rooms above it for sleeping rooms. The Italians are working on the new railroad, five miles south of the city. There had been hard feelings existing between this crew and a crew of fourteen grading men, who live in this city. About 10 o'clock last night an unknown man crept into into a vacant room, set fire to the house, joined the party outside, barricaded the doors and used every effort to keep the inmates from escaping. They, however, managed to get out, many of them leaving all their clothing. An effort will be made to find the guilty ones and punish them. It was a narrow escape for all, as they had retired early and were sound asleep when the alarm was given.

WOODS AFIRE.

Flames Run Through the Tops of Trees Like the Wind.

ST. LOUIS, Oct. 25.—The saw mill, shingle mill and planing mill of C. C. Loomis, about three miles north of Little Rock, Ark., was burned down last night. The cause was a fire in the woods and so fierce were the flames and so rapid their advance that Loomis and his men were compelled to seek safety in flight. So parched and dry were the woods around the mill that the flames ran through the tops of trees, devouring everything in their way. The total loss on timber and mills is $157,000; no insurance.

Fatal Shooting Affray.

BROUGHTON, Ind., Oct. 25.—J. A. Plumley, superintendent of the Vanderbilt stave works, and W. W. Carpenter, a factory hand, have long cherished a lively enmity toward each other because of a dispute over wages. They met last evening in a village store when the altercation was renewed. Finally Carpenter struck Plumley and the latter, drawing a revolver, fired upon his assailant, who returned the fire, the two exchanging shots until they were *horse de combat* from weakness and lay on the floor weltering in blood. Carpenter was shot just under the heart in the left side, puncturing the intestines and in the region of the kidneys. Plumley was shot in the breast and through the hand. Carpenter is dying and Plumley's condition is by no means hopeful.

Trouble Expected.

FORT SMITH, Ark., Oct. 25.—The reported fight between the vigilants and outlaws at Wewoka, in the Indian Territory, last Thursday, proves to be false. Trouble is expected in the Cherokee nation, however, over the late election, as a contest is being made. Everything was quiet at last accounts, but serious trouble is brewing, and a conflict may occur at Talequah, the capital of the Cherokee nation, when the national council meets two weeks hence, and the result of the election is officially declared.

Eagles in Indiana.

BRAZIL, Ind., Oct. 25.—A Sullivan county farmer named Eaton, killed a fine specimen of the bald eagle near Sullivan a day or two since. It measured seven feet between wing tips. A year ago Parke county farmers lost from raids by eagles on chicken-roosts and sheep-folds. An eagle was killed, and a hunt proposed to break up their roost. Professor Collett, ex state geologist, says there are several eagle roosts in the state.

Finally Captured.

VANDALIA, Ill., Oct. 25.—Alfred Gannon, under sentence to fourteen years in the penitentiary for the murder of his six-year old son Lear this place some three years ago, and who by overpowering the keeper escaped from jail here about a year ago, has just been captured at Rich Hill, Mo. Special Deputy Sheriff Jesse Mays left yesterday for Rich Hill, and will return with the prisoner.

Detroits Win.

DETROIT, Oct. 25.—The game yesterday afternoon was played before about 4,000 people, who, for the most part, stood out the game, but a vast amount of shivering was done. The score stood 6 to 3 in favor of the Detroits. The clubs played a game at Chicago this afternoon.

IT MAY BE SO.

No Trouble Anticipated at the Execution of the Anarchists.

SPRINGFIELD, Ill., Oct. 25.—General Vance was seen by a reporter and asked if the state authorities contemplated holding either the first or second regiment, Illinois state guards, in readiness to suppress any resistance on the day of of the hanging of the anarchists. He replied that the governor was the proper person to answer the question, but stated that a week or more ago when in Chicago he had a conversation with Sheriff Matson on the subject.

The sheriff was of the opinion there would not be the slightest trouble in Chicago on that day. As far as he was concerned the general said he did not expect any trouble. He thought the sheriff of Cook county had matters under control, and that it would not be necessary to hold any of the troops in reserve. He said they tried to keep a sharp watch ahead, and if they were apprehensive of any danger on any occasion they could call the troops out promptly.

Shot While Attempting to Escape.

HOT SPRINGS, Ark., Oct. 25.—Jasper Duncan, a prisoner confined in the county jail, was shot and almost instantly killed by Sheriff Williams. Duncan was attempting to escape from jail, and had reached the street. Duncan was recently adjudged guilty on a charge of complicity in killing Mike Martin, and sentenced to twenty years in the penitentiary.

Bandits Work.

RIO GRANDE CITY, Texas, Oct. 25.—Saturday a party of bandits came to town and mailed two letters at the post office, one to Manuel Cuerro, of Rome, and the other to Senor Donneeino Garcia of this place, notifying them that unless they at once raised $15,000 and $8 000 respectively for the bandits their stores would be blown to atoms with dynamite.

CHICAGO, Oct. 25.—The inter-state commission has addressed a circular to all the general managers of railways, asking them to specify all the instances where they are charging less for longer than shorter hauls, and for what reasons. The inquiry virtually asks the officials to lodge complaints against themselves for violations of the inter-state commerce act.

OUR MIDNIGHT CALLERS.

Burglars Get Into "The Sentinel" Office and Feast on Postage Stamps.

Last night the festive burglars were "burgling" as usual. They got into THE SENTINEL building in some way and forced an entrance into the counting room through a transom over the office door. The robbers worked for some time on the safe and attempted to chisel the combination lock from its fastenings.

Failing to get into our safety vault the thieves broke open the cash drawer in a desk and took a little pin money left there and from another desk stole a lot of postage stamps. The intruders then took their departure, without leaving a card or anything like a substantial memento of their wheresbouts.

It is really pleasant to have these news items occur right at home, because several members of the staff can be laid off for want of something to do and expenses curtailed sufficiently to cover all losses.

P. S.—By calling at this office during business hours the burglars can procure a photograph of the safe combination lock in order to expedite matters and substantially reward their next visit. We ask this not for their detection, but as a guarantee of good faith.

NATURAL GAS.

Two Propositions Submitted to the Business Men's Exchange.

MR. G. W. SEAVY presided at a meeting of the Business Men's exchange, last night, in the absence of Hon. J. B. White.

Mr. T. P. Keator said that the Calvin S. Brice syndicate would pipe natural gas to Fort Wayne from the St. Marys, Ohio, gas fields, through Van Wert and Monroeville, if the citizens of Fort Wayne subscribed $150,000 towards the company.

Secretary Moynihan said that Hon. R. C. Bell represented that his syndicate would pipe gas to Fort Wayne inside of ninety days providing they were granted a franchise by the council. Mr. Bell further agreed that his company would stipulate in that contract that the cost of gas would not exceed one-half the cost of present fuel.

The exchange requests such a proposition in writing, and also a proposition from Mr. Brice to be submitted next Monday evening.

M. V. B. Spencer criticised the directors of the old natural gas company and demanded activity or their resignations.

"THE MODERN PAGAN."

Lecture of General Sheridan at the Temple Last Night.

One of the most intelligent and cultured audiences that ever greeted a lecturer was assembled at the Masonic Temple last evening to hear General Sheridan's lecture on "The Modern Pagan."

At 8:15 Hon. R. C. Bell stepped on the stage followed by the lecturer, Gen. George A. Sheridan, whom he presented in a neat way. The general is a portly, heavy-set man, with a deep, mellow voice. He at once announced his subject, that of "Ingersoll, the Modern Pagan," and after paying a high tribute to Col. R. G. Ingersoll as an orator, husband, father and friend, proceeded with an oratorical ability seldom heard on the rostrom, to show the falsity of the position of the audacious colonel on the subject of religion. He alledged that it was his egotism alone that bolstered him up in his false delusions, picturing Ingersoll's inconsistencies at all points on the subject.

The lecture was a treat, intellectually, and the T. P. A., who brought the gentleman here, were deserving of better patronage than they received, the house not paying expenses.

REMEMBERED BY FRIENDS.

Mr. C. F. Taylor and Prof. N. B. Leonard Highly Honored.

When Mr. C. F. Taylor stepped into the *News* office last evening to say "good bye," the little carrier boys crowded about him and in words laden with good will presented him with a gold headed cane, appropriately inscribed.

The office employes then took him in charge and slipped a costly ring on his finger, asking Mr. Taylor to accept and wear it as a token of fraternal friendship and esteem. Of course, the gentleman replied as best and kindly as his emotions permitted.

Prof. N. B. Leonard, the senior editor of the *Gazette*, before leaving Iowa City, was given a richly jeweled gold watch and chain by his fellow citizens and friends and it attests the very high esteem in which he was held at his old home, for neighborly honor is the dearest and best token of all.

Mr. White is unfortunate. His wife died some time ago, and he almost lost his reason in grief. He has four sons, three of them are at work in the Olds factory.

Christ Roseker, the popular traveling agent of the Olds works, has returned from an extended trip. Mr. Roseker met the presidential party at various points west and south and at Atlanta was taken for one of the members of Cleveland's cabinet.

A number of foremen in the Pittsburg works, with their wives, paid Mr. Conrad Theile a visit on last Sunday at his pleasant home near Shelton, and had a very enjoyable time. The occasion was the fifty-second birthday of Mr. Theile and his visiting friends remembered him by making him a very nice and valuable present.

The Pennsylvania company gives notice that the South Chicago and Southern railroad is now open for business its entire length, excepting from Colehour Junction, Ill., a point on the Pittsburg, Fort Wayne and Chicago railroad, fourteen and two-tenths miles from Chicago, to South Chicago and Southern Junction, Ill., where the South Chicago and Southern railroad connects with the Chicago, St. Louis and Pittsburg railroad, nine and three-tenths miles from Colehour Junction.

The improved Westinghouse automatic air brake was tested at Chicago on Saturday, in the presence of a large number of railroad men. The freight train used for the trial consisted of fifty cars, was 1,900 feet, or more than one-third of a mile, in length, and weighed 2,000,000 pounds. It had standard freight brake apparatus and was not especially fitted. The object of the test was to show how quickly a train could be brought to a standstill in an emergency. The train was run at a speed of twenty miles an hour. The brakes were put on at a certain spot, and when the engine had covered 162 feet, or the length of four and one-half cars, beyond this spot the train was perfectly stationary, the stoppage occupying ten and three-quarter seconds of time.

A reporter of the Pittsburg *Dispatch* asked one of the officials of the Pennsylvania road, who was in that city a day or two ago, what the company was doing to relieve the car famine, and he answered as follows: "We are doing all we can. That is the one thing that puzzles us greatly, and we would be glad to receive any suggestions. We can't find the cars. We do not know what becomes of them. We built 11,000 cars this year, and where in the world they have gone to we do not know. President Roberts is beginning to think that if we did not build any more cars they would not be so scarce. The simple fact is that the cars of our road are being used very largely on other lines. The gauge has been made uniform all over the country, and the cars go to all points and are not returned."

Daily Sentinel

TUESDAY, OCT. 25, 1887.

An orange-grower near Lake Eustis, Fla., found on one of his trees a fruit that seemed to be about two-thirds orange and one-third Japan persimmon. The latter resembles a full-grown and ripe red pepper. He dug down to the roots of the orange tree and there found the living root of a Japan persimmon tree twined among the orange-tree roots.

Mrs. Eliza J. Nicholson, of the New Orleans *Picayune*, is the only woman living who is at once the controlling proprietor and the editor-in-chief of a big city daily, and she not only finds her office chair none too large to fill and not too thorny to sit upon, but during her administration of the paper's affairs has seen a debt of $85,000 lifted, and its prosperity every year increased.

Miss Middie Morgan, the live-stock reporter, has been building a house on Staten Island for the last five years, and it is still unfinished. Nothing could be more eccentric than this brick structure. There are iron bars at all the first-story windows, and the largest room in the house is given over to a plunge bath. If the place is ever finished Miss Morgan expects to live there with her sister Jane, who is an artist.

Prince Bismarck's manners when he is troubled by neuralgia or disturbed at inconvenient moments are the reverse of polite. On arriving at Halle on his way back from Kissingen he was awakened by the cheering of a huge crowd at the station. In a very bad humor he put his head out of the window and growled: "Perhaps you think I am going to make a long speech? Well, you are deceiving yourselves! I am much too tired. Good night." And with that he slammed down the window and drew down the blind.

Ex-Queen Isabella's friends assert that she never formally abdicated. She signed a paper in the presence of witnesses which was understood to be an act of abdication. But it was never ratified by the Cortes, never given legal publicity, and, indeed, never left out of her possession. The royal signature is no longer visible. What it was is now a huge ink-stain, she having, in her son's lifetime, in a fit of anger at his disregard of her wishes, taken up an inkstand and dashed it down upon the document in question.

In Boston the sparrows know a thing or two. A lady writes that being attracted by their noisy chattering, she watched their motions and saw a flock of them take turns in carrying a soda biscuit till they dropped it plump on the iron track of the street railroad. Then they all flew away and waited till a car passed over the cracker and ground it to crumbs, whereupon the whole flock swooped down and made a good breakfast. Some people advise poisoning the sparrows. It is very dangerous. Other birds or animals may eat the poison, or the poisoned sparrows. It would not be surprising at any time to find a string of poisoned sparrows on the market.

The increasingly rapid development of railway communication in India is strikingly exhibited in Mr. Conway Gordon's report, from which we learn that no fewer than 1,025¼ miles of new lines were completed and opened for traffic during the official year just ended. Few English folk who sit at home at ease have probably an adequate notion of the perils and hardships that attend upon those who are engaged in constructing these all-important new modes of intercommunication. In the case of the Sind Pishin line the work last summer was carried on in terrific heat. The staff suffered terribly from fever, and the plate-laying gangs were practically renewed every month by fresh importations from India as they melted away from fever, dysentery, and scurvy. In the same way the gangs of girder-erectors dropped off, and during four months were twice replaced. At the mouth of the Chappar rift whole gangs of workmen were prostrated at one time by fever, dysentery, and scurvy. Nor was heat the only trouble. The portion from Sibi to Quetta, 155 miles in length, labors under the disadvantage of its lower half being so hot in summer and its upper half so cold in winter that on these sections, we are told, as far as progress is concerned, about half the year is lost. During the Cumbum division survey 85 per cent. of the inhabitants of the district were attacked; but not until the engineering and subordinate staff, as well as the office establishment, were, with scarcely an exception, prostrated, was it determined to temporarily withdraw the expedition.

Its Delicacy of Flavor

And the efficacy of its action have rendered the famous California liquid fruit remedy, Syrup of Figs, immensely popular. It cleanses and tones up the clogged and feverish system, and dispels Headaches and Colds, and Fevers. Large bottles for sale by Thieme and Gross.

THE LABOR PARTY

Will Hold a Convention at St. Louis in December.

St. Louis, Oct. 25.—Preliminary arrangements have been made for the holding in this city about the middle of December of a conference of all labor political elements or factions in the country, at which there will be representatives from all parts of the union. The object of the conference is said to be to harmonize all the factions of the labor party under one banner for the campaign next year, and to adopt a general platform. Another purpose is to decide upon a new name—one in which the word "labor" will not appear. The National Free Soil party is the name which it is thought will be adopted. It is expected that Henry George will be a prominent figure in the conference, and that it will adopt his land theory. It is also expected that the conference will fix a date and place for holding a national nominating convention. If this is done an effort will be made to have the convention held here.

THE HAYES GIFT.

It is Modified for Acceptance by the Methodist Mission Board.

Warsaw, Ind., Oct. 25.—The mission board of the M. E. church has finally accepted the munificent gift of Elijah Hayes and wife, of this city, of property valued at $230,000 in town and vicinity. Among the numerous provisions made with the gift was one that the property should remain intact for fifty years and that the rents and profits only should be used for that period. The board feared that the property would depreciate in value after the demise of Mr. Hayes, and desired that the objectionable clause be abrogated with his death. Messrs. Fitzgerald and Ried, members of the board, were sent out here two weeks ago to consult with Mr. Hayes and secure a change in the provisions, in accordance with the wishes of the board. It is understood that Mr. Hayes agreed to the change. Chaplain McCabe writes that the Hayes gift is the most magnificent one ever made to his society.

Banker Rawson Will Recover.

Chicago, Oct. 25.—Banker Rawson, it is now thought, will ultimately recover from the terrible wounds he suffered at the hands of his step-son on Sunday last. His physicians say they were well satisfied with the progress of their patient, and thought that unless some unexpected turn for the worse came at once he would in not many days have passed the danger line.

DISEASES OF THE EYE AND EAR.

Office hours: 8 to 12 a. m. 1:30 to 4 p. m.

DR. FRUTH, OF NEW YORK,

The Celebrated German Specialist in Chronic Diseases and Diseases of the Eye and Ear, also Surgeon in Charge of the France Medical and Surgical Institute, of Columbus, O., by request of many friends and patients, will make a return visit to Fort Wayne, Ind., Tuesday, and Wednesday November 15 and 16. Consultation and examination free and confidential at his Parlors at the Robinson House from 9 a. m. to 9 p. m. Two days only.

When it is known that Dr. Fruth is stopping at a place, crowds gather to consult him, and it is not to be wondered at when it is remembered that in diagnosing a disease he never asks questions, but describes the different diseases better than the sick can themselves. It is a wonderful gift for any one to possess. The doctor's diagnostic powers have created wonder throughout the country.

THE FRANCE MEDICAL & SURGICAL INSTITUTE.

INCORPORATED 1886. CAPITAL, $300,000.00.

TELEPHONE 862. No. 30 WEST GAY STREET, COLUMBUS, O. TELEPHONE 862

Established for the Treatment of all forms of CHRONIC DISEASES, and DISEASES of the EYE and EAR. Also, PRIVATE DISEASES.

D. OTHO FRUTH, M. D., the celebrated German Specialist, of New York, Surgeon in Charge.

Dr. FRANCE, of New York, the well known Specialist in Chronic Diseases and Diseases of the Eye and Ear, Principal.

DR. FRANCE, of New York, the well known and successful Specialist in Chronic Diseases and Diseases of the Eye and Ear, on account of his large practice in Ohio, has associated himself with D. OTHO FRUTH, M. D., the celebrated German Specialist, of New York, who has resigned his position in the Provident Medical Dispensary to take charge of the *France Medical Institute*, where all forms of *Chronic, Nervous and Private Diseases will be successfully treated on the most Scientific Principles.*

A FAIR PROPOSITION.—Intelligent people, the world over, when the reason is appealed to and prejudice, envy, fraud, etc., laid aside, can always be relied upon to reach a correct conclusion in any matter that may be presented to them. It is in this way Dr. France, the founder of the *France Medical Institute*, at No. 30 West Gay street, desires to meet the public, and discuss the manner in which he undertakes to cure chronic disease. He places his propositions in this wise: Are you accustomed to think and act for yourself? If so, then do not heed the counsel of friends, however well prepared they may be, or the opinion of physicians, but listen to what we have to say. You perhaps know nothing of us or our system of treatment, or of the cures we effect. You may imagine, but you know nothing of our facilities and advantages of perfecting cures in cases beyond the reach of the general practitioner. Knowing nothing, then of all these advantages, you and know as much as the would-be friend or physician, whose knowledge is only limited by opportunity to travel and misrepresent us, and prejudice the afflicted against us. We wish to add further that we are responsible and invite you to come and visit our institution, and if you find on investigation that we have misstated or misrepresented in any particular, our institution, our advantages or our charges, they can be given in curing Chronic Diseases, we will gladly bear the expense of your trip. We court honest, sincere investigation, and are glad and anxious to show to every person that we can do and are doing for suffering humanity. Can a proposition be plainer? Can an offer be more fair and businesslike? If, therefore, you are afflicted and are seeking relief, come where genuine ability is a ruling feature, where success is our watchword and the alleviation of human suffering our mission.

They adopt the following plan, which is peculiar to the large hospitals, and is not and never has been the practice of country doctors, viz: They carefully note the symptoms of the patient, and examine the conditions of the internal organs, examine Eye, Ear and Throat by the most recent and approved instruments and methods, all of which they carefully record in their register for future reference. In this way they ascertain the true nature of the disease and its cause. Knowing the disease, they know the changes it produces in the tissues, and, knowing these changes, they can look them with specific remedies, and place the patient on the high road to recovery. When sick people consult them they readily tell them whether they can cure or help them, or if they are beyond hope.

The examinations are in accordance with anatomical and physical science, and they will convince the most skeptical. By an examination they will convince any one of the nature and extent of disease, amount of danger to life, and chance of a perfect cure. Believing that science is truth, and truth is mighty and will prevail when known, and knowing that disease can be cured, with positive certainty, they invite the afflicted to call and receive advice free and be cured of their diseases.

There is no subject that requires so much study and experience as the treatment and cure of Chronic Diseases. The astounding success and remarkable cures performed by them are due to the long study of the constitution of man, and the cure of diseases by natural remedies. Terrible cases up by others. Chronic Inflammation of the Womb, Chronic Inflammation of the Bladder, Painful or Irregular Menstruation, Fever Sores or Ulcers, Incontinence of Urine, Tape Worm, Crooked Limbs and Enlarged Joints, Spinal Curvatures, Club Foot, Hip Joint Diseases, White Swelling, Tubercular Abscesses, Sterility or Barrenness, Nervous and General Debility, Prostration and Kidneys, Kidney and Bladder, Rectal Diseases, Piles, Fistula, Stricture or Urethra or Whites, Pustules and Pimples, Skin Diseases, Dyspepsia, Constipation, Dropsy, Cancer, Epileptic Fits, Erysipelas, Gravel, Goitre, Tilted, Ulceration, Hydrocele, Heart Disease, Liver Disease, Headache, Piles, Hysteria, Syphilis, St. Vitus Dance, Catarrhal Dysentery, Enlarged Tonsils, Fever and Ague, Fistula in Ano, Hernia or Rupture, Ovarian Tumors, Paralysis or Palsy, Prolapsus Uteri, Bronchitis, Asthma, Catarrh, Scrofula, Consumption, Chronic Cough, Female Weakness, Spermatorrhœa, Rheumatism, etc.

CURING OF PILES GUARANTEED.—We will give $1,000 for any case of failure. No money required of responsible parties.

YOUNG MEN.—Who have become victims of solitary vice, that dreadful and destructive habit, which annually sweeps to an untimely grave thousands of young men of exalted talent and brilliant intellect, may call with confidence.

DR. FRANCE.—After years of experience, has discovered the greatest cure known for weakness in the back and kidneys, involuntary discharges, impotency, general debility, nervousness, languor, confusion of ideas, palpitation of the heart, timidity, trembling, dizziness of sight, or giddiness, diseases of the head, throat, nose or skin, affections of the liver, lungs, stomach, or bowels—those terrible destroyers of the human race, the untimely exercise of youthful and secret practices, blighting their every prospect or anticipations, rendering marriage impossible. Take one candid thought before it is too late. A week or month may place your case beyond the reach of hope. My method of treatment will speedily and permanently cure the most obstinate case and absolutely restore perfect manhood.

TO MIDDLE-AGED MEN.—There are many forms of disease peculiar to this class, the most frequent evacuations of the bladder, often accompanied by a slight burning or smarting sensation, weakening the system in a manner the patient cannot account for. On examination of the urinary deposits a ropy sediment will be found, and sometimes small particles of albumen will appear, or the color will be of a thin or milkish hue, again changing to a dark or torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is a second stage of seminal weakness. We will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

PRIVATE DISEASES.—Blood Poison, Venereal Taint, Gleet, Stricture, Seminal Emissions, Loss of Sexual Power, Weakness of Sexual Organs, Want of Desire in Male or Female, which arises from evil habits of youth or sexual habits of mature years, or any cause that debilitates the sexual functions, speedily and permanently cured. Consultation free and strictly confidential. Absolute cures guaranteed. No risk incurred. Correspondence promptly answered, and medicines sent free from observation to all parts of the United States.

DISEASES OF WOMEN.—We have a special department, thoroughly organized, and devoted entirely to the treatment of diseases of women. Every case consulting our specialist, whether by letter or in person, is given the most careful and considerate attention. Important cases and we get few which have not baffled the skill of all the local physicians who have the benefit of a full council of skilled specialists. In treatment of diseases peculiar to females, our success has been unmarked, over two-thirds of our patients being ladies, old, young, married, single, rich and poor. Our method is entirely free from objectionable features of the general practitioner, namely, "Local treatment." We seldom find it necessary. We prepare remedies, constitutional and local, as the case demands, and instruct ladies how to treat themselves.

EPILEPSY, OR FITS.—Positively cured by a new and never-failing method.

To Whom it May Concern: We, the undersigned, do cheerfully and conscientiously recommend Drs. France and Fruth as gentlemen of rare professional ability, rare in judgment, humane to a fault, considerate in price, and enthusiastic for the relief of their fellow men, and we therefore urge the afflicted to avail themselves of their superior skill.

A Boon

Tomankind, said a member of the State Medical Society of Ga., at one of its meetings, "and the prescription ought to be given to the medical fraternity for the benfit of the Profession, for no such combination exists in the Pharmacopœa as that of Simmons Liver Regulator." The late THOS. H. POWERS, of Philadelphia, America's greatest chemist, asserted "it was like the discovery of Dover, in his celebrated Dover's Powder, it could not be improved and it was wonderfully strange that the combination had never been made in an officinal form."

L. M. HEWTON, M. D., Washington, Ark., says "No other remedy within my knowledge can fill its place. I have been practicing medicine for twenty years, and have never been able to put up a vegetable compound that would, like Simmons Liver Regulator, promptly and effectively move the Liver to action and at the same time aid (instead of weakening) the digestive powers."

Symptoms such as bitter or bad taste in the mouth; pain in the back, often mistaken for Rheumatism; sour stomach; loss of appetite; bowels alternately costive and lax; headache; loss of memory, with a painful sensation of having failed to do something which ought to have been done; debility; low spirits; a thick yellow appearance of the skin and eyes; a dry cough often mistaken for Consumption, indicate Liver disease, and if not regulated in time great suffering, wretchedness and death will often ensue.

WHAT AILS YOU?

Do you feel dull, languid, low-spirited, lifeless, and indescribably miserable, both physically and mentally; experience a sense of fullness or bloating after eating, or of "goneness," or emptiness of stomach in the morning, tongue coated, bitter or bad taste in mouth, irregular appetite, dizziness, frequent headaches, blurred eyesight, "floating specks" before the eyes, nervous prostration or exhaustion, irritability of temper, hot flushes, alternating with chilly sensations, sharp, biting, transient pains here and there, cold feet, drowsiness after meals, wakefulness, or disturbed and unrefreshing sleep, constant, indescribable feeling of dread, or of impending calamity?

If you have all, or any considerable number of these symptoms, you are suffering from that most common of American maladies—Bilious Dyspepsia, or Torpid Liver, associated with Dyspepsia, or Indigestion. The more complicated your disease has become, the greater the number and diversity of symptoms. No matter what stage it has reached, **Dr. Pierce's Golden Medical Discovery** will subdue it, if taken according to directions for a reasonable length of time. If not cured, complications, as Kidney and Consumption of the Lungs, Skin Diseases, Heart Disease, Rheumatism, Kidney Diseases, or other grave maladies are quite liable to set in and, sooner or later, induce a fatal termination.

Dr. Pierce's Golden Medical Discovery acts powerfully upon the Liver, and through that great blood-purifying organ, cleanses the system of all blood-taints and impurities, from whatever cause arising. It is equally efficacious in acting upon the Kidneys and other excretory organs, cleansing, strengthening, and healing their diseases. As an appetizing, restorative tonic, it promotes digestion and nutrition, thereby building up both flesh and strength. In malarial districts this wonderful medicine has gained great celebrity in curing Fever and Ague, Chills and Fever, Dumb Ague, and kindred diseases.

Dr. Pierce's Golden Medical Discovery

CURES ALL HUMORS,

from a common Blotch, or Eruption, to the worst Scrofula. Salt-rheum, "Fever-sores," Scaly or Rough Skin, in short, all diseases caused by bad blood are conquered by this powerful, purifying, and invigorating medicine. Great Eating Ulcers rapidly heal under its benign influence. Especially has it manifested its potency in curing Tetter, Eczema, Erysipelas, Boils, Carbuncles, Sore Eyes, Scrofulous Sores and Swellings, Hip-Joint Disease, "White Swellings," Goitre, or Thick Neck, and Enlarged Glands. Send ten cents in stamps for a large Treatise, with colored plates, on Skin Diseases, or the same amount for a Treatise on Scrofulous Affections.

"FOR THE BLOOD IS THE LIFE."

By promptly purifying it by using **Dr. Pierce's Golden Medical Discovery**, and good digestion, a fair skin, buoyant spirits, vital strength, and sound health will be established.

CONSUMPTION,

which is Scrofula of the Lungs, is arrested and cured by this remedy, if taken in the earlier stages of the disease. From its marvelous power over this terribly fatal disease, which it controls more than any other medicine known to the profession, Dr. Pierce thought seriously of calling it the "CONSUMPTION CURE," but abandoned that name as too restrictive for a medicine which, from its wonderful combination of tonic, or strengthening, alterative, or blood-cleansing, anti-bilious, pectoral, and nutritive properties, is unequaled, not only as a remedy for Consumption, but for **all Chronic Diseases** of the

Liver, Blood, and Lungs.

For Weak Lungs, Spitting of Blood, Shortness of Breath, Chronic Nasal Catarrh, Bronchitis, Asthma, Severe Coughs, and kindred affections, it is an efficient remedy.

Sold by Druggists, at $1.00, or Six Bottles for $5.00.

The Ignorant Contractor.

Col. McCracken, U. S. A., was the chief quartermaster, stationed at San Antonio, Texas. He had advertised for bids to supply the post with corn, and the contract was to be awarded on a certain day. Col. McCracken was believed to be an honorable and conscientious officer, who would not take a bribe under any circumstances.

Tom Rowell, of the firm of Rowell & Smith, was a sharp, shrewd business man, who was very anxious to get the contract to supply the post of San Antonio with corn, but he did not think it was quite safe to offer the quartermaster a bribe, as he had done on previous occasions with other quartermasters. After thinking over the matter for some time he adopted the following plan to carry out his purpose:

He called at Quartermaster McCracken's office, and asked that officer in an insinuating manner to see that he got fair play when the bids were opened. Col. McCracken replied in a very dignified manner:

"The contract, sir, will be awarded to the lowest and best bidder."

Tom Rowell took up his hat and bowed himself out. In doing so he dropped on the floor an envelope containing five one thousand dollar bills, the name of the firm of Rowell & Smith being on the envelope.

Rowell immediately went to the office of the chief of police, and informed him that he had lost an addressed envelope containing five one thousand dollar bills.

Rowell argued in this way:

"If Col. McCracken keeps the money, I'll get the contract, and I can well afford to let him keep the $5,000. If he, on the other hand, thinks I am trying to bribe him and gets mad about it, I will simply say I dropped the envelope on the floor accidentally, and had no intention of bribing him, and that I didn't know where I had lost the money."

Rowell had scarcely returned to his office from notifying the police of his loss, when in rushed Col. McCracken, his face flushed, very much excited and holding the envelope in his hand.

"What do you mean, sir," he exclaimed, "by trying to bribe a United States officer? This is an insult, sir," and he slammed the envelope down on the table.

Rowell made out that he was very angry at the insinuation. He pounded on the desk with his fist and roared out:

"And what do you mean, sir, by charging me with attempting to bribe anybody? I merely asked you to see that my bid was properly considered. I dropped that envelope without knowing it, and I have been hunting all over town for it. I want you to understand, sir, that I am a gentleman, even if I am only a civilian."

"Now, that is just a little thin," retorted Col. McCracken."

"Well, sir, I'll prove to you that you are mistaken, and then I shall expect an apology," replied Rowell. And going to the telephone he requested the chief of police to come immediately to the office of Rowell & Smith. That official was there in a few minutes and fully confirmed Rowell's statement that he had notified the police of the loss of the money as soon as he had missed it.

Col. McCracken was overwhelmed with mortification at having unjustly accused an innocent man of having attempted to bribe him. He was profuse in his apologies, which Rowell at length accepted.

The bids were opened next day, and it was found that Rowell's bid was not the lowest, but Col. McCracken, feeling that he owed Rowell some reparation, decided that the bondsmen of the lower bidder were not good, and gave the contract to Rowell, who cleared upwards of $25,000 out of it, without having to spend a cent to lubricate anybody.—*Alex. Stewart, in New York Mercury.*

A Glimpse at Thackeray's Religion.

And as W. Butler going to work upon you with his "simple mysticism?" I don't know about the Unseen World; the use of the seen world is the right thing I'm sure!—is just as much God's world and creation as the Kingdom of Heaven with all the angels. How will you make yourself most happy in it? how secure at least the greatest amount of happiness compatible with your condition? by despising to-day, and looking upcloudward? Fish Le Fleurtum God's to-day to its best use, as well as any other part of the time He gives us. When I am on a cloud a-singing, or a good building—I will do my best, and if you are ill, you can have consolations; if you have disappointments, you can invent fresh sources of hope and pleasure. I'm glad you saw the flowers, and that they gave you pleasure—and that noble poetry of Alfred's gives you pleasure (I'm happy to say ma'am I've said the very same thing in prose that you like—the very same words almost). The fountain of the Father I believe to be common and inexhaustible for most of us in life; love the greatest. Art (which is an exquisite and admiring sense of nature) the next—by Jove! I'll admire, if I can, the wing of a cock-sparrow as much as the pinion of an archangel; and adore God the Father of the earth, first, waiting for the completion of my senses, and fulfillment of His intentions towards me afterwards, when this scene closes over us. So when Butler turns up his eyes to the ceiling, I'll look straight at your dear, kind face and thank God for knowing that, my dear, and though my nose is a broken pitcher, yet, lo and behold there's a well gushing over with kindness in my heart where my dear lady may come and drink. God bless you—and William and little Magdalene.—"*Unpublished Letters of Thackeray*," in *Scribner's Magazine*.

TOLSTOI has pronounced against the practice of frequent ablutions, and especially against rubbing the body briskly with a towel after bathing, as conducing to the building up of class prejudices. But in Count Tolstoi's native land, Russia, where there has always been among all ranks of society an abhorrence of personal cleanliness, the class distinctions have been as marked as anywhere in the world.

Oberammergau's Passion Play.

The Passion play at Oberammergau will not be performed again till 1890, but during the last month the villagers have been giving a series of dramatic representations in their theater of Muller's drama, "Emperor Otto the Great and His House," in which the role of the Emperor was taken by the woodcarver, Mayer, who takes the part of Christ in the Passion play. The costumes and scenery, all of which were much admired by the Prince Regent of Bavaria, who recently drove over from his hunting lodge in the vicinity, and was present at the performance, were made and painted in the village.—*Home Journal.*

Syrup of Figs.

Manufactured only by the California Fig Syrup Co., San Francisco, Cal., is Nature's own true laxative. This pleasant California liquid fruit remedy may be had of Theime and Gross, druggists, large bottles at fifty cents or one dollar. It is the most pleasant, prompt, and effective remedy known to cleanse the system; to set on the Liver, Kidneys, and Bowels gently yet thoroughly; to dispel Headaches, Colds and Fevers; to cure Constipation, Indigestion, and kindred ills.

I have not used all of one bottle yet. I suffered from catarrah for twelve years experiencing the nauseating dropping in the throat peculiar to that disease, and nose bleed almost daily. I tried various remedies without benefit until last April, when I saw Ely's Cream Balm advertised in the Boston *Budget*. I procured a bottle, and since the first days' use have had no more bleeding—the soreness is entirely gone.-D. G. Davidson, with the Boston *Budget*, formerly with Boston *Journal*.

There are no flies on the Wabash railway. During the progress of the Green murder trial it will reduce rates between Logansport and Peru.

The Brotherhood of Locomotive Engineers has paid over $2,000,000 to the widows and orphans of deceased members since the birth of the organization.

General McNulta, receiver of the Wabash road, is the proud and happy father of a daughter. Arrived yesterday, so says a dispatch from Bloomington, Ill.

The Huntington *Herald* says: "J. L. Richardson, the day operator at the Wabash telegraph office in Fort Wayne, is to be married next month to a Toledo lady."

J. H. McClung, recently the editor of the Wabash *Plain Dealer*, has purchased a half interest in the Muncie *Times*, daily and weekly, and will have editorial charge of that paper.

The supreme court of Indiana decided on Tuesday, of last week, that a claim against a decedent's estate must be filed thirty days before the filing of the final settlement. If not, it is barred.

C. R. Cummings, who is recalled as one of the builders of the Nickel Plate road, has sold his business interests to General Samuel Thomas, Calvin S. Brice and Brown, Howard & Co.

The Lafayette *Courier* says: "Wm. P. Cooper, city editor of the Fort Wayne *Gazette*, accompanied by his wife, spent Sunday in the city, the guests of Mrs. C's. parents, Mr. and Mrs. Geo. Brown."

Judge R. S. Taylor returned last evening from Memphis, Tenn., having made a number of speeches in the south on the importance of improving the Mississippi river. The *Gazette* reports him as attacking Mr. Cleveland's policy.

A drunken man went to sleep on the Wabash track at Lafayette Saturday night. Just as the headlight of train 56 showed up around the curve, the night watchman came along and rolled him to one side, saving his life and spoiling a moral for the temperance cause.

The Masonic Temple is having the best run of attractions ever presented in Fort Wayne. The bookings for this and next week are Murray and Murphy, October 28th, and Oliver Byron, October 31st. The officials of the Pennsylvania company, located in Pittsburg, will, on the 1st of January, occupy their new building. It is said to be one of the largest and most conveniently arranged buildings for railroad offices in this country, and Master of Motive Power Joseph Woods and his clerical force, in this city, will have office rooms in it.

The Chicago *Times* criticises Hon. A. P. Edgerton, of Fort Wayne, for the liberal construction he puts on the civil service law. Mr. Edgerton will survive and enjoy more than ever the esteem of his fellow democrats for his broad expression that a public office does not disfranchise an American citizen from exercising his political rights.

The Wabash city council has decided to abandon the exploration for natural gas, for which the sum of $3,000 was appropriated from the city treasury. Three wells were sunk with that amount besides the purchase of tools. The sale of the latter to the people of Somerset, has been effected. Wabash presents an inviting field to a natural gas pipe line syndicate. The gas field is but ten miles away.

The Mansfield *Herald* seems to have fallen upon hard financial times, and is engaged in frequent trouble with its employes by reason of irregularity and uncertainty in regard to their pay. Recently the old force of printers quit in a body and a new gang was imported from Cincinnati. Last week these demanded their pay, and the succeeding quarrel was brought to a climax by Wm. F. Harn, junior member of the firm, attempting to shoot Charles Shirey, the foreman, who used to set type in Fort Wayne. The trouble is not yet ended.

The tailors of Fort Wayne say that "the custom made overcoats made and sold by Sam, Pete and Max at $7.50 to $12 beats all creation. Only one price the unvarying law of the firm.

The "Immortal J. N." was expelled from a car on the Nickel Plate road recently by a new conductor, for refusing to pay his fare. The "immortal" threatens to bring down all the pressure in the universe upon that conductor, and predicts that he will either lose his position or wreck the train. He was compelled to walk ten miles to the next station, and his spirit has been much depressed ever since, because it is only the second time on record in which he was turned out of a car.

The new St. Mary's church is one of the finest structures erected in the west, and before the dedication the congregation wants to give every one an opportunity of visiting the edifice. Less than two years ago the old St. Mary's church was blown up by an explosion, and immediately afterwards steps were taken to build a church appropriate to the growth of the congregation and the city, therefore, will they now throw open the doors before the dedication for all to see what has been done in a short time. There will be on sale the finest handiwork of women, and those who wish can encourage the cause by purchasing. It is indeed a grand structure and an ornament to the city, and the congregation should be encouraged by the patronage of the citizens. Avail yourselves of the opportunity, and be present at the opening Tuesday evening. 24-2t

DR. MANVILLE,

THE EMINENT PHYSICIAN AND SPECIALIST
Lately of London, England.

Has Opened Medical Office Parlors at 32 E. Wayne St.,

Arrived Oct. 3, Will stay Till Nov. 10

The Doctor is a graduate of three different Medical Colleges, both European and American, as his Diplomas will show; and he has been highly honored by other Colleges and Universities as well.

His Reputation is International. He has practiced nearly a quarter of a century. He treats all diseases of the Eye and Ear, all Specific, Nervous, Chronic Diseases and Deformities, of men, women and children, and the Opium and Morphine habit. Dr. Manville diagnoses diseases by an entirely different method from that pursued by ordinary physicians and specialists. He never asks a patient his disease, but by a peculiar method reads and tells every disease, complication and symptom better than the patient can; and that without asking a question. It is

TRULY ASTONISHING!

Even physicians wonder at it and take critical cases to him for a final decision. The great question with them is: How Does He Do It? The internal parts of a patient seem to be as clear and plain to him as the external, but just how he obtains such a marvelous knowledge of his patient's condition, no one seems to understand, or be able to describe. That he does it in every case, no one doubts. Some seem to thing that the Doctor is gifted with supernatural powers; that no ordinary man could give such remarkable descriptions of strangers as he does. Be that as it may, this curious feature of his practice alone, is bringing him thousands of grateful patients; many of whom declare that his wonderful diagnostic skill and power in performing cures is

Positively Miraculous

The most skeptical are convinced and astonished.

Sufferers from Nervous Debility and Blood Diseases and complaints of either sex, requiring Special Treatment, cured in a few days or weeks, without interfering with their work.

HUNDREDS OF MEN.

are afflicted with Seminal Weakness, Spermatorrhea, and Impotency, brought on by various causes, such as venereal excesses and diseases, occupations requiring a straining and stooping position, and especially the unnatural abuses of the sexual functions, the SOLITARY HABIT so often indulged in youth without knowing the terrible results.

Young man, Stop! Look this matter square in the face; think, consider what you are doing. Waste no time and money with ignorant or unskillful pretenders, who trifle with you month after month, treating symptoms only, with Bromide of Potassium compounds that imperverish your blood, deaden your nerves, stupefy your mind and relieve nothing—but your pocket book. Such poisonous drugging

MAKES YOU WORSE.

We can prove by hundreds of cases on record that bromide mixtures so often given for first and last manhood, seldom if ever, cure fits, but almost always DESTROY MANHOOD and ruin the MIND. Bromide of Potassium and Gelsemium are the main remedies used. Given for seminal weakness &c., to control SYMPTOMS while you take them. They never touch the cause or effects cure. The unhappy victim goes on from bad to worse, reaching at last the most deplorable and horrible condition of humanity imaginable. A Lost Mind—a helpless idiot or raving maniac made so by the action of these poisons on the blood and brain, as well as by the disease. In fact, these remedies are worse even than the disease. Let Them Alone.

In all such cases we guarantee a speedy restoration to healthy, strong and vigorous manhood. Microscopical examinations of the urine made in all these cases. We make NO EXPERIMENTS and very few failures. We guarantee all curable cases.

Electric Medication and the NEW METHOD TREATMENT enables us to effect WONDERFUL CURES.

DISEASES OF WOMEN.

Every maid, wife and mother who has dragged an aching back and head through weary years; deserves our utmost sympathy, and may depend on getting the most careful, skilful and successful medical treatment that can be given. Twenty years study and practice in diseases of women, both in Europe and America, has convinced me that eight out of ten American women suffer from some of the following complaints peculiar to the sex: Irregularity of the menses, too free, too scant, or painful; leucorrhea, (whites), varicosities, metritis, endometritis, ulcerations, displacements, enbedding of the womb, anteversion, retroversion, interversion, ante and retroflexions, producing constipation, or produced by it; uterine and ovarian tumors, fibrous and sarcoma cysts, cancers of the womb, hernia, appendages frequent or scanty urine, with burning, smarting or itching, tenderness, soreness, bloating and broken constitution, skin, pimples, blotches, brown spots, yellow spots, red spots, sycosis, pasty, waxy, or bloodless appearance, and discolorations of the skin, with blue or dark circles around the eyes. Nature tells us when she lays her plans and signals the approach of the grim enemy of life, disease, and looks sharply into your mirror to be not deceived, for these signs and symptoms mean weakness, nervousness, irritability, wakefulness, indigestion, sick headache, hysterics, fits, general debility, melancholy, hysteria, wasting, consumption, catalepsy, St. Vitus dance, &c. Derangements, irregular and painful. Many ladies especially young ladies, are so timid and extremely modest that they hesitate and put off calling on a physician until they are past cure. Many would learn more of their daughter's maladies, vanish from their minds dread of exam nation, for ladies do not have to expose their complaints to Dr. Manville; no unpleasant questions are asked; no objectionable examinations are made; no painful local treatments are given. In most cases ladies can treat special to medies themselves, where it is needed.

While Dr. Manville was on the Medical Staff of the Woman's Hospital in New York, he was especial notice for great success in treating all diseases peculiar to women.

For the weak and feeble women, and those not pregnant, but wishing to be a mother, Dr. Manville's "Germicide and Some a Friend," will prove a blessing indeed. Sent to any three thousand ladies have used, or sent for it, and used it successfully. It is the greatest remedy known in Europe or America for "Female Weakness" in any form, but we will not say. Extraordinary cases require extraordinary skill and experience.

Health and strength will make you happier and more independent than money. Study your own interests. Delays are dangerous.

Our term will be made satisfactory to all; charges as moderate as we can in justice to ourselves and patients make them.

Consultation and exam nation free. Office hours 8 a. m. till 8 p. m. Office parlors at 32 Calhoun street.
